March 18, 2020

Dear U Prep Community,

We received another notification late today that a parent of one child who attends the University Prep Science & Math Elementary School (Miller campus) located at 2251 Antietam St. Detroit, MI. 48207 has tested positive for the COVID-19 virus. The child who attends the school has not shown any symptoms at this time.

Our recommendation is that anyone who had access to the school self-quarantine for the next 14 days. It is possible that you are a carrier of the virus and can spread it to others even if you show no symptoms. If you come down with symptoms of COVID-19, we encourage you to call your physician, visit the Center For Disease Control or the Detroit Department of Health websites and follow the protocols listed.

Out of an abundance of caution, we are suspending packet pick-up at this school effective immediately. Remaining packets will be mailed today. Should you have any questions regarding the learning packets please contact your School Director or your child's teacher. The building will remain closed and will undergo a deep cleaning.

Meal distribution will continue to take place at this school on Friday, March 20 from 9:00 am -1:00 pm in addition to the University Prep Art & Design Elementary and University Prep High School locations. Pick up will occur in the parking lot at each of these schools and not require you to leave your vehicle.

In the weeks ahead- as testing becomes more widespread, I am sure that we will learn about more cases confirmed in our community, across the city, and around the country. We are in this together. We are grateful to our team members and contractual partners who do so much to support our students and their families. We will continue to reach out and check-in on you during the school closure.

For additional student resources please visit UPrepSchools.com, COVID-19 Updates page.

Danielle Jackson

Interim CEO, Detroit 90/90
